

Douglas Wigdor Named to Forbes' America's Top Lawyers List

September 16, 2025 • News & Press

Forbes has announced the 2025 list of America's Top Lawyers and has named Founding Partner Douglas Wigdor a top lawyer in the practice area of Labor & Employment.

This list is an assembly of the country's most distinguished attorneys across a variety of specialties. The honorees were determined through a multi-phase research process that included interviews with industry insiders, outside nominations and editorial research and takes into account factors such as reputation, industry honors, influence on the legal landscape, client list, advocacy performance, practice impact, peer/client reviews, affiliations, thought leadership, pro-bono practice, mentorship, and community work. An excess of two thousand finalists was considered, and we are proud to see Douglas included on the final list of 250 distinguished attorneys.

You can find the full list [here](#).
